

α ALPHA CORPORATION

Alpha Corporation is part of a family owned textile business group established in the year 1995, at Ludhiana, INDIA. The group has evolved from a spinning company specialising in fancy yarns to a leading exporter of home textiles. At present, the fourth generation of the family is managing the group of companies. Key Clients are Habitat, Linum, Karl Lagerfeld, Company C, EQ3.

We are specializing in Bed Spreads, Throws and Shawls. The company's design and manufacturing arm continues to supply to major retailers around the world. We specialize in hand crafted home textiles made from natural fibers. We have recently added recycled fibers in our product line. As a vertically integrated unit, the design and development starts with selection of fiber. Mohair, Alpaca, Cashmere, Camel hair, Wool, Silk, Linen, Cotton are blended to create special yarns in our spinning division. Special effect yarn like brushed, boucle, slubs, marl, boiled and felted are developed to bring out the unique properties of these fibers. Man-made fibers like acrylic, polyester, polyamide, are also blended for technical and aesthetic reasons.

These special yarns are woven into classic and contemporary weaves by master craftsmen. We work closely with our customers to develop products exclusively for them based on their designs. Flexible manufacturing techniques enable us to handle low volume as well as high production runs.

Our customer base comprises of some of the best known global brands, importer, retailers and mail order catalogues. Our skill and knowledge combined with expert factory partners ensure a high level of precision in a wide range of material and application.
